FEATURES

- Sealed stainless steel case provides a weatherproof, dustproof corrosion-resistant gauge
- Spiral tube transmits motion directly to the pointer – no gears or bearings to wear out
- High impact-resistant polycarbonate window
- UL 404 listed for compressed gas (including oxygen) for 1500 psi, 2000 psi, 3000 psi and 4000 psi

Ashcroft® direct drive pressure gauges are ideally suited for applications that demand reliability under rugged operating conditions. The heart of the design is a spiral bourdon tube of Beryllium Copper – long recognized as a superior spring material. The spiral tube transmits motion directly to the pointer. There are no gears or bearings to wear out!

These Ashcroft pressure gauges are constructed with a stainless steel case and an impact resistant polycarbonate window to endure applications that require a weather-tight, dustproof and corrosion resistant enclosure. Stringent process controls assure conformance to the most demanding customer quality expectations.

Choosing Ashcroft direct drive pressure gauges for your application is the right quality choice!

COMMONLY USED ON
Pumps, air compressors, portable tire inflators, portable oxygen equipment, self-contained breathing apparatus, portable industrial gas cylinders, a variety of other applications

HOW TO ORDER

Dial Size: 1½"  
Case Type Number: DDG  
Connection Size/Location: ¼ NPT Back  
Options: XUL for UL 404 Listing  
Range: 0/3000 psi

PRODUCTION SPECIFICATIONS

Ashcroft® Model No.: 12DDG, 15DDG  
Sizes: 1¼" (12DDG), 1½" (15DDG)  
Case: Stainless steel, sealed  
Ring: None  
Window: High impact-resistant polycarbonate  
Dial: Black figures on white background  
Pointer: Integral with Bourdon tube, black  
Bourdon Tube: Beryllium copper, spiral; soft soldered to socket  
Movement: None (direct reading)  
Socket: Brass  
Restrictor: Safety plug in 1500 psi — 4000 psi ranges  
Connection: ¼ NPT back

*12DDG available in 180° arc

Repeatability: Better than 1%

Accuracy: Standard – 2% at setpoint (setpoint is normally 50% of range; other setpoints upon application)

UL Listed – 3.5% of span in middle three-fifths of scale

Operating: –40°F to 150°F

Temperature: –40°C to 65°C

OPTIONAL FEATURES

Tube: Silicone dampened tube (for vibration)  
Silicone filled tube (for corrosion protection)

Socket: ¼ NPT  
Throttle Plugs, 0.007", 0.013", 0.020", 0.031", 0.063" orifices  
Non-standard configuration

Dials: Customized

Other: UL 404 Listed 1500 psi, 2000 psi, 3000 psi, 4000 psi, including oxygen

Note: Consult factory for high cycle life applications.
